

3D Printing Tech Talk

@Mountain View Public Library

with Brian Palacios of Fabricastl

Free Program!

Are you sitting on the sidelines of the 3D printing field, just itching to get into the game? This overview presents armchair enthusiasts with a sophisticated yet digestible paradigm designed to deepen understanding of the 3D printing space. Each participant will walk away with a broad-spectrum understanding of the most common 3D printing technologies, related tools and materials, and a greater sense for how they can be practically leveraged for consumer or business use. Though familiarity with 3D printing is recommended, expertise is not required. Anyone who is curious about 3D printing will benefit from the session.

When: Thursday, July 18, 2013

Where: Mountain View Public Library
585 Franklin St. Mountain View 94041
Library Community Room, 1st floor

Time: 6:30-8:30 p.m.
